| RESTful APIs | MongoDB |

Programming languages & Technologies with less experience (1 year or less)

| PHP & Symfony | ASP.NET | Java & Spring | MySQL |

| Bootstrap | SASS | Jekyll | Gulp |

CERTIFICATION

Programming Basics with JavaScript - May 2017
Software University

Programming Fundamentals - November 2017
Software University

JS Fundamentals - January 2018
Software University

JS Advanced - February 2018
Software University

ExpressJS Fundamentals - May 2018
Software University

ReactJS Fundamentals - June 2018
Software University

Angular Fundamentals - July 2018
Software University

JS Applications - July 2018
Software University

Web Fundamentals - HTML5 - September 2018
Software University

CSS Advanced - November 2018
Software University

PROJECTS

TireMania Project

Project built on ReactJS Framework using Kinvey RESTful API as backend. Accessing the catalog & other features requires authentication. Administrator account will come in handy (Acc: ADMIN, pass: admin).

RimsMania Project

Project built on Angular 6 Framework using Kinvey RESTful API as backend. Accessing the catalog & other features requires authentication. Administrator account will come in handy (Acc: ADMIN, pass: admin).

Republik

Plain HTML & CSS (SCSS) project. Project is demonstrating usage of top styling technologies (eg. Grid, Flexbox).

WAR (upcoming!)

Browser based modern warfare game built on ReactJS. No stable releases currently available.

AWARDS

⭐ **Top student in Software University**

🏆 **Silver cup won by me and my volleyball team (my schoolmates) beating Madans team**

STRENGTHS

🧠 Logical thinking

⚙️ Teamwork

👁 Self-awareness

⛓ Influence

💬 Communication

🚀 Creativity
